This list of Business Classification Codes is separated into industry groupings called Divisions (listed above) based on the ANZSIC 2006 structure. Each Division is given a letter of the alphabet for reference and within each Division there is a structure of increasingly narrow defined industry descriptions referred to as Subdivisions, Groups, Classes and Custom Classes. Custom Class codes have been added to the ANZSIC structure for the NZ Business Benchmarking Survey to more closely define the industries that can be reported.

Only Class or Custom Class codes on these pages may be selected for businesses being submitted to the survey. Where a business' activities fit into more than one Class, choose the predominant activity and describe the nature of the business in the Notes.
